

Bei welchen Körpern handelt es sich um Zylinder?

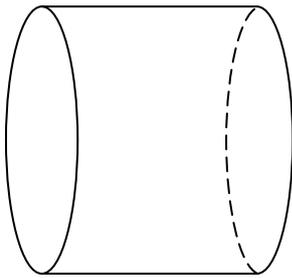

1

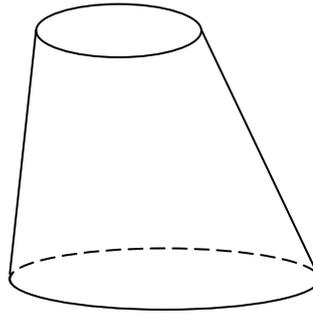

2

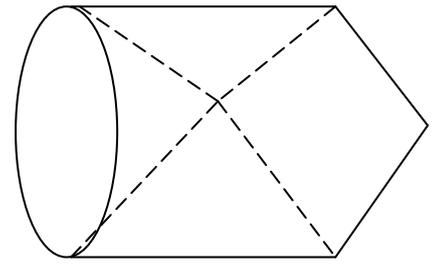

3

4

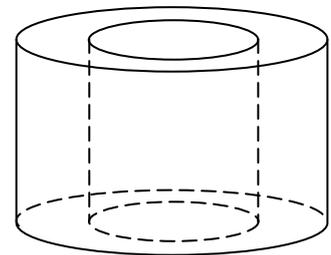

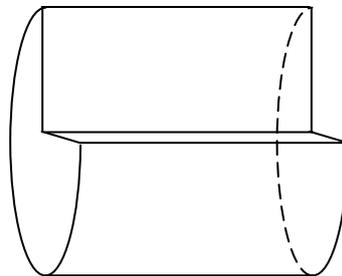

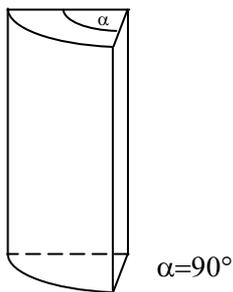

5

6

Benenne diese „Zylinder“ genauer!

Zur Berechnung des Volumens von Zylindern muss man den Radius der Grundfläche und die Zylinderhöhe kennen.

Das Volumen ergibt sich aus:

$$V = \pi * r^2 * h$$

Ergänze!

r	6cm		3,3cm	1,3cm
d		1m		
h	26cm	0,9m	9,8cm	25m
V				***
Möglicher Behälter?		Gartenfass
